## **MARTIAL LAW COMING TO NZ? (Bloody well hope not...)**

### **Bills Digest No 1363: Law Reform (Epidemic Preparedness)**

Download link to PDF of the bill:

<http://www.taxpolicy.ird.govt.nz/publications/files/39bar1.pdf>

Seems pretty urgent to me. The bill is supposed to pass August...and has received very little media coverage. It is no less than marshal law in disguise...all in the guise of dealing with the event of a pandemic...The action plan is modeled on the [World Health Organization's model](#) which suggests an international effort to establish marshal law (*Close borders, workplaces and schools. Halt all unauthorised traffic and outlaw mass gathering*). The Action Plan is available on the Health Ministry Web Site..The actual Bill was very hard to get and we finally got it through the Green Party. Thank you to them. The Bill by itself does not seem too threatening ...however when read in conjunction with the Action Plan and the old Bill it is updating, it is very bad news.

Some points:

- This law **supersedes all other laws** and rights...eg the right to freedom of medical choice.
- Personal property can be commandeered, i.e. one's home and car if considered needed.
- The ability for **police to use force** on people **SUSPECTED** of having bird flu (or ANY flu).
- If they refuse they can be quarantined and ... if they resist "**enforced vaccination**" they will be fined \$ 4,000 and sent to jail for 6 months...
- Law enforcement powers are expanded and this law can be enforced during a pandemic and during "inter-pandemic " times.. i.e. anytime the Govt wants.
- The language refers to "Medical Officers". Who are they? Does not say Doctors...
- The language in the Action Plan even **refers specifically to Tamiflu vaccinations** which have not been tested and which was created to reduce symptoms of 2 flu viruses not including the Bird Flu. (*The Government has committed \$26 million to buy 835,000 Tamiflu treatment courses. ~\$30 each*)

## Rumsfeld tried it in the 70's!

"At the present writing, October 1976, *a group of medical opportunists* have taken upon themselves the dictatorial authority to declare the threat of a sweeping epidemic of **SWINE FLU** which they said was similar to or related to the 1918 epidemic of Spanish influenza which wiped out 20,000,000 people world-wide. This declaration was supposed to scare all the people into their vaccination centers to be shot full of experimental vaccine poisons, while they, the promoters, *raked in the profits.*"-- [Eleanora I. McBean, Ph.D., N.D.](#) [[source](#) ]

## Roche is no better!

**PRICE FIXING! (Roche receive largest fine in US history...)**

WASHINGTON, D.C. -- A Swiss pharmaceutical giant, F. Hoffmann-La Roche Ltd today agreed to plead guilty and pay a record \$500 million criminal fine for leading **a worldwide conspiracy to raise and fix prices** and allocate market shares for certain vitamins sold in the United States and elsewhere, the Department of Justice announced. A German firm, BASF Aktiengesellschaft, also will plead guilty and pay a \$225 million fine for its role in the same antitrust conspiracy, the Department said.

## BIRD FLU FACTS

Do you know that 'bird flu' was [discovered in Vietnam 9 years ago?](#)

Do you know [131 people have died in the whole world](#) in all that time?

Do you know that it was the Americans who alerted us to the efficacy of the human antiviral TAMIFLU as a preventative?

Do you know that TAMIFLU barely alleviates some symptoms of the common flu?

Do you know that its efficacy against the common flu is [questioned by a great part of the scientific community?](#) (You can't make a vaccine for a virus that doesn't yet exist!)

Do you know that against a *supposed* mutant virus such as H5N1, TAMIFLU barely alleviates the illness?

Do you know it's very hard to get infected?

(Bird-to-human transmission most commonly occurs when particles from contaminated feces are inhaled. Although human-to-human transmission is *theoretically* possible, so far, there are only a few cases where human-to-human transmission is thought to have occurred. And in those cases, human-to-human transmission did not continue beyond the immediate contacts of the primary case. [source](#))

Do you know who markets TAMIFLU? [ROCHE LABORATORIES](#) .

Do you know who bought the patent for TAMIFLU from ROCHE LABORATORIES in 1996? [GILEAD SCIENCES INC.](#)

Do you know who was the then president of GILEAD SCIENCES INC. and remains a major shareholder? [DONALD RUMSFELD](#), the present Secretary of Defence of the USA.

Do you know that the base of TAMIFLU is crushed aniseed?

Do you know who controls 90% of the world's production of this tree? [ROCHE](#).

Do you know that [sales of TAMIFLU](#) were over \$US254 million in 2004 and more than \$US1

BILLION in 2005? (update: +37% in sales 1stQ '06)

Do you know how many more millions [ROCHE](#) can earn in the coming months if the business of fear continues?

So here's how it works:

- Governments decide that the medicine TAMIFLU is the solution for a pandemic that has not yet occurred and that has caused 131 deaths worldwide in 9 years.
- This medicine doesn't so much as cure the common flu.
- In normal conditions the virus does not affect humans.
- Rumsfeld sells the patent for TAMIFLU to ROCHE for which they pay him a fortune.
- Roche acquires 90% of the global production of crushed aniseed, the base for the antivirus.
- The governments of the entire world threaten a pandemic and then buy industrial quantities of the product from Roche.

So we end up paying for medicine while Rumsfeld, does the business.

ARE WE CRAZY!!? OR ARE WE IDIOTS!!?

Oh and it [profited from concentration camp labour in WW2](#)

## WHO PROFITS?

After doing a bit of research into the directors of Gilead Sciences I thought I should probably add a bit more to this email...

### PARTIAL LIST OF *GILEAD SCIENCES* DIRECTORS

#### **James M. Denny**

Chairman, Gilead Sciences Board of Directors, Executive Vice President of Searle

Searle developed "The Pill", and also introduced [Aspartame](#) , a highly-toxic chemical, to our food (AKA NutraSweet/Phenylalanine). One by-product of aspartame breaking down is [formaldehyde](#), a neurotoxin, which eventually into Formic Acid, this is also extremely toxic. [[howstuffworks.com](#)] [[source](#)]

*Note: Aspartame is being replaced by SUCRALOSE: ("Splenda/sucralose is simply chlorinated sugar, a chlorocarbon. Common chlorocarbons include carbon tetrachloride, trichlorethelene and methylene chloride, all deadly. Chlorine is nature's Doberman attack dog, a highly excitable, ferocious atomic element employed as a biocide in bleach, disinfectants, insecticide, WWI poison gas and hydrochloric acid." [source](#))*

#### **Paul Berg**

Nobel Prize Winner, Chemistry

Cahill Professor, Emeritus, Stanford University Medical Center

Berg was the first to splice together DNA from different species, an achievement which gave birth to a new field--genetic engineering. Berg is also an associate of Dr Alejandro Zaffaroni who helped found Maxygen - "the leader in nucleic acid recombination technologies for imparting new properties into single genes, multi-gene systems, pathways, vectors and genomes." [\\$6.7 Million Grant from DARPA to Develop Aerosolized Vaccines](#) (Could they be behind the spraying in the sky?? I have no idea...)

## Etienne F. Davignon

Minister of State

Vice-Chairman, Suez-Tractebel

Current chairman the [Bilderberg Group](#), who have held **secret meetings every year since 1954**.

Attendees of Bilderberg include central bankers, defense experts, mass media press barons, government ministers, prime ministers, royalty, international financiers and political leaders from Europe and North America. Only in the last few years has this group been mentioned in the public arena (ie the internet).

## George P. Shultz

Director of Bechtel Group, Former US Secretary of Defence

Today Shultz is the architect behind the current Bush Administration. It was he who selected Dick Cheney and Condoleezza Rice and the so-called "*Vulcans*," who molded the first Bush Administration. [\[source\]](#)

Shultz is also the mentor of that second would-be Austrian dictator, Arnold Schwarzenegger, whose father was a Nazi and who himself has expressed his admiration for Adolf Hitler. [\[source\]](#)

The economic policies implemented in Chile under Pinochet after his coup d'état against Chilean President Salvador Allende in 1973, including the privatization of social security, were the radical free-trade policies of George Shultz, who was dean of the University of Chicago Graduate Business School from 1962-68. [\[source\]](#)

Since Sept. 11, 2001, the Bush Administration has adopted in its "War on Terrorism" precisely the same fascist police-state methods employed by Pinochet in Operation Condor. Alleged terrorists have been apprehended and kept incommunicado without legal recourse; while detained they have been subjected to torture either by U.S. agents, or by our "allies" through a policy called "rendition"; the number who have been "disappeared" by Donald Rumsfeld's "hunter-killer" death squads is unknown. And now Bush has nominated John Negroponte to be National Intelligence Director. Negroponte, who was U.S. Ambassador to Honduras (1981-84), was complicit in the activities of death squads in that country during the period in which Operation Condor was operative in Central America.

[Operation Condor](#) (Spanish: Operación Cóndor, Portuguese: Operação Condor) was a campaign of assassination, counter-terrorism, and intelligence operations implemented by right-wing military dictatorships that -from circa 1950 to 1980s- dominated the Southern Cone in Latin America. The systematic repression aimed both to deter Marxist influence in the region and to control active or potential dissenters against the dictatorial regimes. This organized repression caused an unknown number of deaths. Prosecution against the culprits are, to different degrees, still pending, but some have been acquitted.

*Leagalsed Narcotics - "to make it possible for addicts to buy drugs at some regulated place at a price that approximates cost.... We need at least to consider and examine forms of controlled legalization of drugs." - Oct. 7, 1989, speech to the Stanford Business School [\[source\]](#)* Shultz's program, in historical effect, has resulted in skyrocketing addiction wherever it has been implemented.

## Gayle Edlund Wilson

Director, Education Financing Foundation of California and Ralph M. Parsons Foundation

Wife of former California Governor Pete Wilson. Member of California Independent Citizens Oversight Committee, which governs the state's \$3-billion Proposition 71 embryonic stem cell research effort. (State cost of about \$6 billion over 30 years to pay off both the principal (\$3 billion) and interest

(\$3 billion) on the bonds. State payments averaging about \$200 million per year.
